

## Gravity-Flow Shelving System

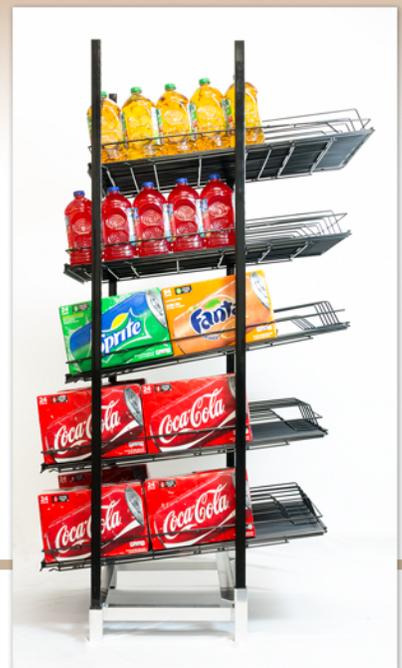

### Super Slide-Trac™

We understand the importance of keeping the product in front of the shelf.

STYLELINE's Super Slide Trac Gravity-Flow shelving system allows you to maximize your merchandising dollars by doing just that!

Gravity flow shelving systems is NSF-approved and can accommodate single cans products, gallons and 12 or 24 packs. Shelving can be easily arranged by modifying tilt-angle and lane divider width.

- Designed to withstand cold environments and high volume.
- Full perimeter guards adjust vertically to accommodate container heights.
- Lane dividers ensure product is always neatly lined up.
- Ideal for displays that change regularly.

# Gravity-Flow Shelving System
